Quality of care will vary. As a parent you will have your own standards. Deciding which program is best for your child and family is up to you. It's very important for you to visit the facility, observe and ask questions. Provider names given through Children & Families First are referrals only, not recommendations. Licensed centers and family child care providers have the opportunity to participate in Delaware Stars for Early Success quality improvement system and/or become accredited. The Stars and accreditation status of a program is one way you can obtain information on the quality of care being provided.

For more information on Delaware Stars or accreditation visit the following websites:

Delaware Stars for Early Success: A voluntary quality improvement system that assesses and improves the quality of early care and education and school age settings. www.delawarestars.udel.edu.
